CURRICULUM VITAE
July 2017

Kim Fortun, Professor and Department Chair, kfortun@uci.edu
Department of Anthropology /University of California Irvine
3151 Social Science Plaza / Irvine, California 92697-5100

APPOINTMENTS

University of California	Department Chair	July 1, 2017-present
Rensselaer	Department Head	January 2016-June 2017
Rensselaer	Acting Department Head	July 2013 – June 2014
Rensselaer	Professor	July 2011-present
Journal of Cultural Anthropology	Co-Editor	January 2006-December 2010
Rensselaer, School of H&SS	Associate Dean	August 2001-July 2004
Institute for Advanced Study	Visiting Scholar	January-May 2001
Rensselaer	Associate Professor	May 1999-present
Cornell University	Rockefeller Postdoc	January-December 1994
Rensselaer	Assistant Professor	August 1993-May 1999

ELECTED POSITIONS
President-Elect, Society for Social Studies of Science

EDUCATION
Rice University, PhD Anthropology, May 1993
Duke University, BA History/Philosophy, May 1986

RESEARCH FOCI
anthropology of science, technology and environment; experimental ethnography; research collaboration and infrastructure

NARRATIVE DESCRIPTION
Kim Fortun is a Professor and Department Chair in the University of California Irvine's Department of Anthropology. Her research and teaching focus on environmental risk and disaster, and on experimental ethnographic methods and research design. Her research has examined how people in different geographic and organizational contexts understand environmental problems, uneven distributions of environmental health risks, developments in the environmental health sciences, and factors that contribute to disaster vulnerability. Fortun's book *Advocacy After Bhopal Environmentalism, Disaster, New World Orders* was awarded the 2003 Sharon Stephens Prize by the American Ethnological Society. From 2005-2010, Fortun co-edited the *Journal of Cultural Anthropology*. Currently, Fortun is working on a book titled *Late Industrialism*: *Making Environmental Sense*, on *The Asthma Files*, a collaborative project to understand how air pollution and environmental public health are dealt with in different contexts, and on design of the Platform for Experimental and Collaborative Ethnography (PECE), an open source/access digital platform for anthropological and historical research. Fortun also runs the EcoEd Research Group, which turns ethnographic findings about environmental problems into curriculum delivered to young students (kindergarten-grade 12), and is helping organize both the Disaster-STS Research Network, and the Research Data Alliance's Digital Practices in History and Ethnography Interest Group.   Fortun co-edits a book series for University of Pennsylvania Press titled *Critical Studies in Risk and Disaster*, designed to connect academic research to public problems and policy, reaching audiences in different regions of the world. September 2017 through August 2019, Fortun will serve as President of the Society for Social Studies of Science, the international scholarly society representing the field of Science and Technology Studies.

GRANTS

Co-PI with Mike Fortun and Jim Hendler, RPI Teaching and Learning Collaboratory Grant, "STEM + STS: Expanding and Showcasing Students' Analytic and Collaboration Capacities," $20,000. January 2016-August 2017.

Co-PI with Mike Fortun, NSF SES Research "Environmental Health Governance in Six Cities: How Scientific Cultures, Practices and Infrastructure Shape Governance Styles." $302,083. September 2015-August 2017.

Co-PI with Mike Fortun (Rensselaer) and Deborah McGuiness (Rensselaer, Tetherless World Constellation). Rensselaer Seed Funding for "Platform for Experimental, Collaborative Ethnography (PECE)." $100,000. January 2015 - December 2015.

Investigator (with Cynthia Collins, Karyn Rogers, Deborah McGuinness, Kristin Bennett, Anna Dyson, and Mike Fortun). Rensselaer Seed Grant. $100,000. January 2015 – December 2015.

Co-PI (with Atsushi Akera). Rensselaer Seed Grant Social Theory and Disaster: Building an International Research Network. $12,000. January 2014 – June 2015.

Investigator (Jose Holguin Veras PI) Volvo Research and Education Foundation. Center of Excellence on Sustainable Urban Freight Systems (CoF-SUFS).

Co-PI with Scott Frickel (Washington State) NSF SBE Workshop Grant: "Disaster Science and Technology Studies (DSTS): Advancing an Emerging Subfield." $25,000. Awarded fall 2012. Workshop held September 2013.

Co-PI with Atsushi Akera (Rensselaer) and Cathryn Carson (Berkeley), NSF SBE Workshop Grant: "STS Forum on Fukushima: Building a Transnational Research Agenda and Strategy for Engagement through a Social Scientific Understanding of Disasters & Disaster Sciences." $25,000. Awarded fall 2012. Workshop held May 2013.

Co-PI with Mike Fortun (Rensselaer) and Peter Fox (Rensselaer, Tetherless World Constellation). Rensselaer Seed Funding for *The Asthma Files*. $18,000. Awarded December 2011. Through summer 2013.

PI, NSF Dissertation Grant (for Aalok Khandekar), "Understanding (Indian) Technomigration: Experience and Structural Conditions." $12,000. 2009-2010.

PI, NSF Grant, "Strategizing Transdisciplinarity: From Exposure Assessment to Exposure Science." $160,000. August 2007-December 2011.

PENDING PROPOSALS

Co-PI, US National Science Foundation, Smart and Connected Cities IRG Track 1: "Creating Smart Cities through Data‑driven Control in Disruption‑Tolerant Sensors Networks (1,479,939.00) (7-17 to 6-21)

Co-PI, US National Science Foundation, National Research Trainingship Program for Actionable Research on Food, Energy and Water Systems: "Integration of Techno and Social Science in Electrochemical Materials and Systems for Sustainable Technology ($3,000,000) (10-17 to 9-22)

Co-PI, US National Endowment for the Humanities, Digital Humanities Advancement Grant: "Layered Attribution and Nanopublication for the Empirical Humanities."$325,000) (9-17 to 8-19)

SCHOLARLY PRODUCTS

peer-reviewed monographs

in prep   *Late Industrialism: Making Environmental Sense.* A manuscript focused on the complex infrastructural, environmental and knowledge problems that characterize *Late Industrialism*, a historical period roughly and heuristically beginning with the 1984 Bhopal chemical plant disaster, still regarded as the "world's worst industrial disaster." Drawing on over two decades of ethnographic research around industrial and environmental disasters, governance and science, the analysis draws out new forms of vulnerability emergent from tight linkage between technical, ecological, political-economic and socio-cultural systems.

in prep   *Experiments in Ethnography*. A manuscript including previously published and new essays on experimental ethnographic research design and practice.

2001   *Advocacy After Bhopal: Environmentalism, Disaster, New Global Orders.* University of Chicago Press. (awarded the 2003, biannual Sharon Stephens Prize by the American Ethnological Society)

digital research platforms

2015   *Platform for Experimental, Collaborative Ethnography (PECE)* An open source/access digital platform that supports multi-sited, cross-scale historical and ethnographic research. PECE is theoretically inflected, ethnographically grounded, and builds in best-practice data management as recommended by the Research Data Alliance. PECE was designed by researchers at Rensselaer (led by Professors Mike Fortun and Kim Fortun), and is now available for use by other researchers as a GitHub download.

2014   *Disaster-STS Research Network* A platform designed to bring together researchers from around the globe, from many different disciplines, concerned to better coordinate efforts to understand, anticipate and respond to environmental and industrial disaster. The initiative extends from two 2013 NSF-sponsored workshops, one (organized by Kim Fortun with sociologist Scott Frickel) focused on Disaster-STS broadly; another (led by Kim Fortun and historian Atsushi Akera) focused on the aftermath of the Fukushima disaster (bringing together Japanese and American researchers). Now runs on an instance of PECE.

2012   *The Asthma Files* An collaborative ethnographic project (involving researchers at many institutions, led by Mike Fortun and Kim Fortun at Rensselaer) to understand how individuals and organizations are working to address the global air quality crisis and epidemic incidence of asthma. An associated project, "Environmental Health Governance in Six Cities: How Scientific Cultures, Practices and Infrastructure Shape Governance Styles" is supported by the National Science Foundation (September 2015-August 2017). Now runs on an instance of PECE.

edited volumes

2010   (with Mike Fortun) *Major Works in Cultural Anthropology, Vol 1: Moorings, Vol 2: Modernities, Vol 3: Emergence, Vol 4: Engagements*. Sage.

1998   (with Todd Cherkasky) *Science as Culture* Vol. 7, No. 2. Special Issue, "Counter-Expertise and Collaboration."

peer-reviewed essays and articles

in press   (with George Marcus and Mike Fortun) "Computers in/and Anthropology: The Poetics and Politics of Digitization," *Routledge Companion to Digital Ethnography*.

2016   (with Scott Knowles, Louis Felipe Murillo, Paul Jobin, Max Liboiron, Pedro de la Torre, Vivian Choi, and Miwao Matsumoto) "Researching Disaster From an STS Perspective," *Handbook of Science and Technology Studies* edited by Ulrike Felt, Rayvon Fouché, Clark A. Miller, and Laurel Smith-Doerr. MIT Press.
